

Management Systems Statement

Peppers Cable Glands Limited operates Management Systems which meet the requirements of ISO/IEC 80079-34:2011 Explosive Atmospheres, Part 34: Application of quality systems for equipment manufacture, ISO 9001:2015 Quality Management Systems, ISO14001-2004/2015 Environmental management systems. The Occupational Health and Safety Management system is aligned with the requirements of OHSAS 18001:2007.

The business designs, manufactures and supplies industrial and hazardous area cable glands, thread adaptors and associated accessories to British and International Standards and/or customer specifications. The business is aware of its context in relation to it's:

- Customers
- Economics
- Environment
- Market
- Regulatory Frameworks
- Risk Management
- Stakeholders &
- Technology

It has combined systems to facilitate improvement in its quality, environmental and OH&S culture, ensure compliance and effectiveness of its operation.

The business will strive to deliver unrivalled product quality, technical support and service delivery to ensure customer satisfaction. It constantly reviews and improves and assesses the risk of its management system by analysis of its metrics, feedback from its customers, its regulatory framework and taking in to consideration the overall context of the business to give our “**end to end performance**”.

The business manages its environmental activities to ensure compliance to the regulatory framework and any environmental impact of its operation is minimised and prevent pollution, harm and degradation. It is committed to improving its environmental performance within the constraints and overall context of the business.

The business manages its Occupational Health & Safety activities to ensure compliance to the regulatory framework and works to minimise risks to those on site.

As an organisation Peppers is committed to training its teams and keeping them informed of all appropriate aspects of the business.

This Statement is reviewed annually.

T. Thakore
